## LIGHTNING STRUCK BALLOON

Italian Military Aeronaut Killed by Storm Striking Balloon.

Rome, June 5.—A tragic incident took place today during a review of the troops by King Victor Emmanuel at Cassano d'Adda. As a part of the manoeuvres, a military balloon was sent to a height of 700 feet with Captain Ullivelli in the car. A storm which had been coming up, burst suddenly, and the thousands of spectators were horrified to see a flash of lightning strike the gas bag. There was an enormous burst of flame, and a terrific detonation, and the collapse of balloons with its dangling car fell to the earth over a mile from the scene of the review. Crowds of persons, afoot and in automobiles and in motor cars, rushed in the direction where the balloon had fallen. Capt. Ullivelli was found alive but unconscious. He was placed in an automobile and rushed to a hospital, where he died without regaining consciousness. King Victor Emmanuel and the military authorities went to the hospital after the review to inquire after him.

## STRATHCONA NEWS

### BUILDING PERMITS.

The building permits in Strathcona for the month of June totalled \$153,375. The total did not include the C. P. R. improvements, which are as follows:

Station .....	\$40,000
Engine and boiler house .....	40,000
Oil and house tank, etc. ....	20,000
Trunk house .....	2,000
Store house .....	3,000
Total .....	\$105,000

The expenditure on C. P. R. new buildings and improvements, however, will total about \$140,000.

### LOCALS.

Premier Rutherford, as a token of appreciation to the Strathcona brigade band, sent them a \$25 cheque from Quebec, previous to sailing for England.

Vital statistics for May are: births 41, marriages 15, deaths 12. M. T. Gallion, of the Imperial Bank, has arrived in the city to take the place of Mr. Reed, who has been transferred to Revelstoke.

The Sons of England society have decided to make the last meeting of each month a social evening, thereby increasing the interest of the members of the lodge.

The pastor of Knox Presbyterian church was occupied again yesterday by the pastor, Rev. Mr. Fleming, after a two months' absence in the city. The congregation was very pleased to have the reverend gentleman back again in better health so the result of his holiday.

J. Wainwright has commenced extensive improvements to his property on Main and Boulevard streets. The contract has been awarded to W. H. Martin & Co. and includes a stable with accommodation for eighty horses, a new driving shed and other buildings that will cost in all \$6,250.

The driving shed will be erected to open on Main street.

J. K. Menomy is opening a grocery store on Whyte avenue, between Hatz and Grandin streets.

The old Nillock street school, purchased by the May-Sharpe Construction Co. in connection with their contract for the new collegiate institute, is being torn down and only four or five feet of the walls now remain. The school was erected in 1894.

## FAMILY DIED FROM DIPHTHERIA

Regina Druggists Refused to Supply Anti-toxine Without Cash.

Pense, Sask., June 2.—A distressing incident has occurred here, four children of Mr. and Mrs. Redtrain having died of diphtheria. Druggists in Regina refused to supply anti-toxine because cash did not accompany the order.

## REVOLUTIONISTS MORE DARING

Chinese Rebels Murdering Officials and Burning Official Buildings

London, June.—According to a special despatch from Shanghai, the revolutionists in the districts surrounding Swatow and Amoy are murdering the officials, burning official buildings and occupying towns and villages. The tactics of Swatow, the despatch adds, is only separating losses suffered by the revolutionists from the losses of the government. The revolutionists would lead to foreign interference.

### LACHOSSE

At the meeting of the Lachosse committee Saturday evening it was decided to secure a trainer at once to get the men into shape. He will see to it that the players turn out and look after them on the grounds and after the practices.

The team will practice every evening this week in preparation for the big league games. R. Emmet Gordon was appointed manager and C. H. Bristol, secretary, for the season. They have been acting very well at the Saturday evening meetings were officially appointed.

The first league match takes place on June 14, with Strathcona in Edmonton, and it is the duty of every player to get out and get into shape if they expect to lead the championship of Alberta.

### FOR SALE—A FARM SITUATED

15 miles south-east of Edmonton, near Beaumont, Alta., being about half section 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 7

## "OBVIOUSLY."

The Winnipeg Telegram is in a state between pleased amazement that Senator Loughheed should have so far forgotten his traditional affection for the Canadian Pacific Railway as to favor the construction of the Hudson Bay Railway, and horror at the thought that federal money should be spent in such an enterprise without the district traversed being first included within the boundaries of the province of Manitoba.

This is hard on Senator Loughheed. For the first time in twenty years the Senator has dared to call his soul his own in the presence of the Canadian Pacific Railway and even now, of course, he may be only announcing a change of allegiance and not asserting his self-proprietaryship. But giving him the benefit of the doubt why should the new convention singled out by his Winnipeg admirer and the country at large invited to gaze on this marvel of transferring influence? Why not leave him for a season to grow strong in his new found faith, while the country forgets what he has been? It is poor encouragement to a man who is trying to do better to invite the public to gaze at his feeble and faltering efforts to retrieve the past. The Senator has much to retrieve and his efforts are likely to be both feeble and faltering.

But the Telegram's view of the Hudson Bay Railway is certainly more enough to command attention. Briefly, the Telegram will not consent to permit the railway to be built unless and until the province of Manitoba is extended to include the country through which the road must pass and the sort at which it must terminate. This is really to be had. Some reason should surely be forthcoming for this off-hand destruction of the project from which the people of the West have hoped so much. The only explanation we are favored with is this: "Federal expenditure of money at Fort Churchill will be money spent in the interests of Canada, and in the interests of the West, especially Federal assistance to a railway to be built to Fort Churchill may be a 'good thing' at the proper time. The proper time for the expenditure of federal money at Fort Churchill 'however, is obviously not until jurisdiction over Fort Churchill is set 'tied for all time'."

In other words, the Hudson Bay Railway should be held up, according to the Telegram, and the only explanation offered is—"obviously." "Obviously," this is too cruel. The Telegram annihilates our hopes and scoffs when we query why. This much is clear—the Winnipeg Telegram is making open war on the project for the immediate construction of the Hudson Bay Railway. It declares unequivocally that "consideration of the Hudson Bay route 'must rest.' More than this it announces its intention of opposing the project both at present and in future unless the territory to be traversed by the railway be first annexed to the province of Manitoba. Under these circumstances we must look for the motive behind the Telegram's 'obviously' being too 'obviously' inconclusive to be deceptive.

Who then stands to gain by having the Canadian Northern Railway from the Saskatchewan to Hudson Bay built through Manitoba territory? Who stands to profit by having the line built under Provincial as well as Federal auspices and aided by the Provincial as well as the Federal Government? The people of Manitoba? "Obviously" they would be quite as much benefited by the absorption of the territory after the construction of the line. Who has benefited because the Canadian Northern Railway in what is now Manitoba was taken under the protecting care of Premier Roblin and backed by the credit of that province? "Obviously" the Canadian Northern Railway Company. And to whom has been rendered the political benefits of the Canadian Northern Railway in Manitoba? "Obviously" to Premier Roblin. And to whom might the gratitude to the Canadian Northern Railway Company be supposed to go for similar generosity in connection with the contemplated line to Hudson Bay? "Obviously" also to Premier Roblin. "Obviously," therefore, the Telegram is simply the mouthpiece of Premier Roblin and the Canadian Northern Railway Company, praying that they be permitted to continue in Southern Saskatchewan, the mutually profitable assurance by which Hon. B. P. Roblin remains Premier of Manitoba and Minister of the Canadian Northern Railway.

## GRAIN GROWERS WILL CONVENE

Having failed in litigation the grain growers of Manitoba propose to try legislation as a remedy for their grievances against the Grain Exchange. The action against Messrs. J. C. Gage, J. G. McHugh and John Love was dismissed by Judge Phippen, the judge holding that their operations had exerted no "undue restraint" on the grain trade. The farmers are now taking the other side and a convention will be held in Winnipeg on Wednesday and Thursday of this week, at which the views of all the municipalities in the province are expected to be presented. The purpose of the gathering is to consider amendments which the provincial legislature will be asked to attach to the charter of the Winnipeg Grain Exchange. One of these is designed for the prohibition of dealing in futures or options. Other matters to be considered are an amendment to the criminal code respecting combining and the restriction of trade, Government ownership of line and terminal elevators, reciprocal demurrage, and the substitution of the central for the bushel as the unit of exchange.

## The Sixth Day

Pabst brews beer five days of the week—the sixth day is the cleaning day.

Tanks, vats, kettles and pipes are thoroughly cleaned and sterilized. Only pure, filtered water and scalding steam are used.

Floors, walls and ceilings are scrubbed and scoured. Cleanliness is absolutely imperative everywhere, for Pabst knows that the only way to brew clean beer is to keep the brewery spotlessly clean.

And one-sixth of the time Pabst considers none too much to insure positive cleanliness in the brewing of

Pabst  
Blue Ribbon

The Beer of Quality.

Stop and realize for one moment what this sixth day means to you.

First—the knowledge that Pabst Blue Ribbon is a clean beer.

Second—the assurance that Pabst Blue Ribbon is brewed under perfect conditions as exist in your own kitchen, where the balance of your food is prepared.

When ordering beer, ask for Pabst Blue Ribbon.

Made by Pabst, at Milwaukee and bottled only at the Brewery.

## SPECIAL DISPLAY

## Ladies' Coats and Suits

at the  
Hudson's Bay Stores

We have just received a large importation of  
Ladies' Rain Coats and Suits. These are without doubt  
the most stylish and exclusive designs that we have  
ever had.

There is a feeling with the Edmonton Ladies to  
wear nothing that is not absolutely the latest. We  
have, therefore, gone more extensively into these high  
grade goods.

The New Eton Suit, with Gibson shoulder, is one of  
our most popular designs this season, in Fine Tweeds  
trimmed with Persian trimming, also in Chiffon Broad-  
cloth, Panama Cloth and light weight Serges.

In Ladies' Coats we have a Novelty made in Cream  
Serge and Cream Hopsack, beautifully embroidered  
with Silk at \$10.00, \$15.00, and \$18.00. This is un-  
doubtedly the smartest thing of the season.

Your inspection is cordially invited.

## Advised to Buy Coal

(Continued from Page 1.)

tion act had been in existence operators would have seen there was plenty of timber on hand.

Lethbridge, June 1.—John Bishop, of Tabor, claims to have been discharged from three mines at the account of his active identification with the miners' union. He told the coal commission that he had lost his job at the Canada West Coal and Coke Company, the Buffalo mine and the Wilcox. No reason had been given, but from what he had learned he knew his union affiliation was at the bottom of the trouble. At one mine he had been told to work at a part of the mine where the roof was so bad and the air so foul that no other man was asked to go there, and he took this order to mean that he was frozen out of a job. Bishop believed in the strike hour day and a compensation act.

P. L. Kallimith, general manager of the Galt company, defended the reversed coal system in use in the mine here. While he did not know of another mine using this system in Canada, he claimed it was the best for the men and the company, as it induces the men to turn out lump coal, which was the kind of coal the company had a market for, since there was no market for slack. The commissioner closed his session here at noon and will meet at Frank on Monday morning.

## THE BANK OF HAMILTON

Over Ten Per Cent. is the Yearly Yield in Ten Years from an Investment in its Shares—A Successful Story—Alive to Commercial Needs, it Steers a Safe Course—Nearly One Hundred Branches, but Capital is Conservative—Deposits Increased 279 Per Cent—Total Assets, 230 Per Cent.

The Bank of Hamilton is one of the Canadian Institutions which belongs to the second division in point of years and capital, but which, in percentage of growth and soundness, is right in the first line. Its progress during the past ten years has been continuous. The results of an investment in its stock in 1897 and sold in 1906 is so remarkable as to point out the moral that for rich returns the man who has saved some money need not have recourse to speculative issues. The amount he would have received from an investment in Bank of Hamilton stock averages 10.30 per cent. per annum.

The Bank of Hamilton from com-

1903.....	85.	8.33	20.41	10	16.76
1904.....	86.68	8.88	20.78	10	15.33
1905.....	100.	9.29	20.41	10	15.47
1906.....	100.	8.43	18.04	10	15.03

Increases in capital offered pro rata to old shareholders, were made as follows:—

1899—1 share in 5 @	162—market price 190
1900—1 " 6 @	166 " 108
1901—1 " 7 @	165 " 108
1902—1 " 8 @	165 " 226
1903—1 " 9 @	200 " 215

A shareholder taking his allotment of new shares and selling it at the market price at the time of issue would, therefore, have received from this source profits over the par value of his holding of 560 per cent. in 1899; 566 per cent. and 314 per cent. in 1901; 512 per cent. in 1902 and 166 per cent. in 1903; an average of 193 per cent. for the ten years and six months.

To sum up, an investment made in 1897 in Bank of Hamilton stock at 102, the current price, and sold out in 1906 at 222, the current price, would have returned the investor his principal intact and 110.30 per cent. net annual interest, made up as follows:—Average dividend return on original purchase price, 5.64 per cent.

return on purchase price from average increase in selling price of shares, 143 per cent.; average return from sales of allotment of new shares, 113 per cent.; Of course, an investor who held his investment prior to 1906 took up his subsequent allotments and still has then and his original holding has received a somewhat greater advantage through the present market price being greater than the average at which his allotment would have been sold.

The directors and officers of the bank are: Hon. Wm. Gibson, president; J. T. Turnbull, vice-president; John Proctor, George Rutherford, Hon. J. S. Hendrie, Cyrus A. Hill, C. C. Fidler, J. T. Turnbull, and manager—Financial Post, Toronto.

## Railroads Lay Off Men.

New York, May 31.—Orders for the usual summer reduction in help were issued by the New York Central & Hudson River Railroad today, and will become effective tomorrow. Between three and four per cent. of the employees on the system between New York and Buffalo, a total of nearly 2,000 men, will be laid off.

## Pennsylvania Blast.

Louisville, Pa., June 1.—Fire which broke out shortly after midnight in the Harris Barrel Works, burned over a section of about eight acres and caused a damage of about \$100,000. At 1:45 this morning, the fire was under control. The hot places include the Harris Oil & Grease Works, the Harris Shaking Mill, Smith machine shops, the Perry machine shops and half a dozen feedings.

## Boy Shot his Sister.

Patchin, N. Y., May 31.—Elwin Cassin, ten years old, his thirteen-year-old sister, Isabelle. The boy was firing at a target with a shotgun. His sister ran in front of the object which he was shooting at and received a charge of shot in the head, killing her instantly.

## After Their Chief.

San Francisco, Cal., May 31.—It has been decided by District Attorney Langdon to call a meeting of the grand jury tomorrow to consider the advisability of taking steps to oust Chief of Police Dineen.

## Financial and Commercial News

### Stock Fluctuations.

New York, May 31.—The covering movement among the bears in the stock market, which set in on Wednesday, was resumed today with the decline of this demand, the market issued in almost total stagnation for a time and then recovered.

The extension of the movement has helped by special strength in a few stocks due to individual factors. There were also some buying based on President Roosevelt's statement, and the course of the day's events indicated that the market would be influenced by the address had been overestimated in the professional transactions, which sought to anticipate it. A more substantial basis for the improved feeling was the showing of net earnings of railroads for April, which came to hand.

Trading was a conspicuous example with net earnings for the month of nearly \$2,000,000 compared with \$3,247,400 in April of last year.

The April statement of the Ontario & Western and the quarterly statement of the International Harvester, to show these favorable conditions to be general for the coal and steel.

Trading was advanced strongly in consequence.

An upward movement in American trading was due to talk of an increased income in the distribution of the coming meeting of the directors.

Later the evening buyers began to roll and a sagging movement set in. Foreign markets were quiet and reported an improvement in speculative movements.

Forecasts of an unfavorable bank report movement. The movement with the interior has been largely in favor of New York City.

Cash money touched three per cent today. Crop reports, mild weather conditions being considered favorable for our own wheat crop, but decidedly unpropitious for the foreign. Foreign exchange receded slightly and discounts were lower in London and Europe, but without effect on the engagement of gold for export.

Bonds were steady. Total sales par value, \$750,000. United States bonds advanced one-fourth while the old four per cent declined one-fourth per cent on call.

Dun's Review.

New York, June 1.—R. G. Dun & Co.'s weekly review of trade tonnage says: "Seasonable" merchandise is distributed slowly, which causes accumulation of spring and summer dry-goods and millinery in the hands of dealers and wholesalers, while making operations for hand and winter more conservative.

At some points the last week of May brought pronounced improvement in commercial activity, but the holiday related recovery and progress was slow.

On Monday business was slow, about the lowest average since 1904.

Agricultural disaster was predicted. Official records show this was the coldest spring since 1882, but in that year the leading crop was wheat, the highest figures of the year up to that time. Manufacturing plants are producing to full capacity in most of the most industries and note New Zealand cotton-mill industry have received advanced views, making the change effect about 35 per cent.

Official evidence of progress in commercial spinning was slow, but quarterly dividends at Fall River to 2.25 per cent, against 1.52 last year.

Railway earnings for May were 2.5 per cent, larger than in 1906, while foreign commerce at the close of the last week showed a gain of \$1,377,724 in imports, and a loss of \$1,377,724 in exports, as compared with last year.

Flourish sale week in United States are 160 against 174 last year.

Cotton Active.

New York, May 31.—There was an active opening in the cotton market today, the January selling about twelve cents a pound and the general market showing a gain of about 10 to 20 points on reports of a bad crop and a strong English market.

Miners Head.

Lethbridge, May 31.—Miners of the coal commission and vigorously argued for the eight-hour day and the compensation act taking a stand directly opposed to that of the operators, as presented today.

New York News.

May, 1907-14 to 1907-5. July 1904-12 to 1904-14, closed 160.5. September 1904-12 to 1904-14, closed 160.5. December 1904-12 to 1904-14, closed 160.5.

Wheat Receipts.

New York, May 31.—Wheat receipts 298,000. Exports, 10,000,000, sales, 3,000,000. Spot sales: A weaker opening in wheat today, influenced by the advance in the West, was followed by a strong advance on bullish European crop news. During the afternoon the market rallied and firm.

Russian Crop Prospects Bettered.

New York, June 3.—The Post's weekly financial cable says: "Benevolent" rate in Russia has been maintained, which has helped to offset this week's continental crop outlook, but it is still far from certain that the crop will show a deficit of ten per cent compared with last year's record, which was listed more than 100,000,000 bushels below 1906. In general and in spite of the improved Russian outlook, European crop prospects are still distinctly unfavorable.

Official indications and foreign reports guaranteed as reliable by Berlin, indicates the possibility of a deficit in Europe's entire wheat crop of 10,000,000 bushels compared with last year. The outlook for the yield of the United States and Canada is taken here to suggest a further noticeable decrease from 1906 of 20,000,000 to 30,000,000 quarters.

Wheat Seeding About Done.  
Ottawa, June 3.—(By Wire.) Southern telegrams from Moose Jaw to the department here are as follows: Wheat crop at Indian Head to Moose Jaw, practically all sown. Most of it is up, and growing rapidly. The area sown, owing to increased settlement, is larger than last year. The weather is favorable. A fine rain fell last night. Farmers are still sowing oats, barley and flax.

# REAL ESTATE ADVERTISEMENTS

## RIVER HEIGHTS

The beautiful residential sub-division of River Heights is now being offered for sale for the first time at prices and terms which bring home sites within the reach of all.

River Heights takes in the south-easterly 50 acres of river lot 19, all within the city limits of Strathcona, and 50 acres of river lot 21, adjoining the boundary line of the city. A circle with the Alberta hotel for centre and a radius of one mile cuts the property in the middle.

The inauguration of a street car service will bring all this property within ten minutes' ride of the busiest part of either city. The property which Premier Rutherford recently gave Strathcona for a park is right at the south end of the River Heights sub-division.

As a home site offering better has ever been offered. The prices are not inflated. They are placed low for a city site, but only a limited number of lots are to be sold and these are to be placed, as far as possible in the hands of actual home builders.

Municipal improvements, such as water works, lights, sidewalks, etc., will all be forthcoming within a year or so on account of the fact that home building is to be encouraged. The lots which are to be sold at the first sale will be kept off the market until these improvements are secured and the owners will do everything in their power, by petition and a willingness to bear a share of the rates involved, to see that these improvements are carried out.

This is not an "out on the prairie" proposition. It is right in town. If you care to see the property come to the office and take a drive over it with us. It will only take a few minutes of your time and may make you hundreds of dollars.

There are 11 view lots in R.L. 19 to be sold. These lots are 50 x 130. They overlook the City of Edmonton, the parliament buildings and have a clear view of five miles of the valley of the Saskatchewan River. No other lots were ever offered at such prices. These eleven are going at \$1,000 each, one-third cash; balance 4 and 12 at 7 per cent.

In block 5 of R.L. 19 there are a limited number to be sold at from \$300 to \$500; terms the same.

In blocks 4, 3, 2 and 1 there are lots that are being offered at \$250 for inside lots and \$275 for corners. Size of lots, 50 x 130 feet to a 20 foot lane. In subdivision of River Lot 21, lots are from \$125.00 to \$150.00 for inside lots and \$25.00 extra for corners; size of lots, 1/2 mile to 1/4 mile.

There are 11 View Lots in R.L. 19 which will go at \$1,000 each, one-third cash, six and twelve months, seven per cent. interest.

## Now Offered for The First Time

A beautiful Residential Sub-Division within the City Limits of Strathcona and less than one mile from the Edmonton Post Office.

### RIVER VIEW LOTS UNEQUALLED IN THE PROVINCE OF ALBERTA.

Choice homesites easy of access to either city. The construction of the Street Railway will bring them within 15 minutes of the business centres.

## Beautiful New Lots \$1000 each

One Third Cash; Balance 6 and 12.

### Inside Lots \$125 to \$350

## CIVIC IMPROVEMENT SOCIETY

The Civic Improvement Society are issuing a Pamphlet Setting Forth the Aims of The Society, From Which the Following Information is Taken.

### OFFICERS FOR 1907.

President, E. B. Edwards.  
Vice-President, Walter MacKay.  
Secy-Treasurer, Geo. W. Maslin.

### Executive Committee:

Geo. Harcourt Frnd. Bennett,  
A. Mitchell, A. E. Potter,  
Jno. K. Powell.

### OBJECTS OF THE SOCIETY.

I. The improvement by property-owners of their properties in the matter of:

- Cleanliness and tidiness of yards.
- Removal or improvement of fences.
- General establishment of simple flower gardens.

- Nest, well kept, lawns.
- Planting of trees, shrubbery, etc.

II. The encouragement and advancement of the general Civic Plan of Parks, Boulevard, Drive, etc.

The Civic Improvement Society of Edmonton was organized on Friday, May 17th, 1907, and has already undertaken a work of such importance, and so intimately connected with the well-being of the city as to merit it the sympathy and support of all citizens.

Not only does the Society endeavor to promote the cleanliness and beautification of home surroundings, but desires to co-operate with the city authorities in carrying out the general Civic plan of parks, breathing spaces, boulevards and drives.

It is the desire of the Society to benefit all classes, both directly and indirectly.

To citizens already interested in making attractive their homes, the Society offers advice and assistance as to proper methods of transplanting, etc.

To those who have no desire to beautify their plantings, the Society offers special instruments to encour-

age and foster an interest in the object which the Society has in view. Owing to the fact that many citizens have been imposed upon by agents of the City of Edmonton, the Society has secured the co-operation of several reliable nursery firms, in Alberta and Manitoba, with the result that members of the Society may secure nursery stock at a greatly reduced price, with the satisfaction of knowing it to be absolutely true and fully guaranteed.

The Society has been fortunate in securing the assistance of Mr. A. Mitchell, formerly of the Forestry Department, of Ottawa, and now Provincial Forester, than whom no man is better qualified to give advice as to the transplanting and care of trees, shrubs, etc. Mr. Mitchell has made much study of the subject in the Province, as well as the climatic conditions and is eminently fitted to advise the citizens, to the end that the best results may be obtained.

The Society, then, offers to the public this pamphlet by Mr. Mitchell, which they will find of assistance to those citizens who are about to beautify their properties, and encourage a great many others to follow their example.

**TRANSPLANTING DECIDUOUS TREES.**  
The chief objection to native grown trees is that the root systems have not been prepared with a view to being transplanted, but they have the advantage of being perfectly hardy and if transplanted with care, the roots are not injured. The plants should have no difficulty in getting used to grow in their new location, and yet, how often do we find the trees and shrubs of plant life in the Province, as well as the climatic conditions and is eminently fitted to advise the citizens, to the end that the best results may be obtained.

The Society, then, offers to the public this pamphlet by Mr. Mitchell, which they will find of assistance to those citizens who are about to beautify their properties, and encourage a great many others to follow their example.

**TRANSPLANTING DECIDUOUS TREES.**  
The chief objection to native grown trees is that the root systems have not been prepared with a view to being transplanted, but they have the advantage of being perfectly hardy and if transplanted with care, the roots are not injured. The plants should have no difficulty in getting used to grow in their new location, and yet, how often do we find the trees and shrubs of plant life in the Province, as well as the climatic conditions and is eminently fitted to advise the citizens, to the end that the best results may be obtained.

**TRANSPLANTING DECIDUOUS TREES.**  
The chief objection to native grown trees is that the root systems have not been prepared with a view to being transplanted, but they have the advantage of being perfectly hardy and if transplanted with care, the roots are not injured. The plants should have no difficulty in getting used to grow in their new location, and yet, how often do we find the trees and shrubs of plant life in the Province, as well as the climatic conditions and is eminently fitted to advise the citizens, to the end that the best results may be obtained.

branches so as to balance the tree as far as possible. The root system will be found to consist of one or two main roots and a number of smaller ones, and it will always be found better to cut the large roots either with a sharp axe or a saw, as far as the roots become the earth, which is in consequence very liable to shake off when the tree is lifted, or result which may be carefully guarded against, as it means failure of the tree.

**Transplanting Spruces or Pines.**  
Spruces and pines should not be planted till later, probably the first two weeks in June.

A good general rule for planting spruces is to watch for the time when the central bud is starting to grow and the scales covering it are beginning to get loose. Spruces are usually planted for the sake of their foliage, and should therefore be selected from a situation where they have had room to develop this to the best advantage.

It is it will always be found better to select a spruce growing singly in the open if possible and where it is not over-shaded or crowded by other spruces. Immediate effect is usually what is aimed at, in that the foliage is not injured by being moved with a reasonable chance of success. The limit of safety in Northern Alberta will probably be about 4 to 5 feet high and there should be no trouble at all about setting trees of that height to grow if the work is done properly.

**Removing the Trees.**  
The first thing to do after selecting the tree is to take a string round the stem below the lowest branch and then to cut the string around the whole tree enclosing the branches and working towards the top where it can be done.

It is of course always advisable to take as much root as possible but when the roots are small and the tree is young the root is much more difficult to handle unless extraordinary precautions are taken. As much earth as possible should be taken with the root.

A trench wide enough for comfort, also spading should therefore be dug all round the tree that is to be lifted at the distance selected, the earth removed from around and under the root and the whole dressed smoothly with the spade. Before moving the tree, water should be placed under the roots and around the ball of roots, earth and securely tied. The loose end of the cord should be passed over the top of the ball, then through underneath the tree on the other side, brought back around the stem of the tree, then carried to another part of the ball and secured as before. This should be done several times till the ball of the tree is firmly encased in a regular basket of sacks and twine. Trees prepared like this have been carried by the writer forty miles over a rough road and every one grew.

**Do Not Prune Spruces.**  
A spruce it must be remembered should never be pruned when transplanted. Its foliage is the beauty of it, and besides it requires all the foliage it has to enable it to recover after being moved, because in the green leaves is stored up the nourishment necessary for it to enable it to start its growth in the spring. It will therefore be easily seen how detrimental the removal of the foliage will be to the tree.

The holes for the reception of the trees should be at least twice as wide as the roots which are intended to fill them, and they should be dug down to allow the whole plant to be at least two inches deeper than it was in the ground.

This is most important. The bottom of the hole should be filled with a few inches of the surface soil and the best soil should be as far as possible placed near the roots when planting and the whole should be carefully packed, if necessary using a short stick about 10 inches long to pound in the soil underneath the tree.

At the time the ball of roots should be carefully filled up and packed firmly. The top two inches of soil should be left quite loose. Nothing has been said about watering, and indeed this is as it should be. Many people consider the watering of plants after they are set in the ground, thinking there is in connection with planting but this is a mistake and probably the most water an average tree will require during the summer.

**Why Pay Duty?**  
Why should you—a Canadian—give the preference to imported ammunition to the detriment of your own purse, without any improvement in quality?

**Dominion Ammunition**  
is made in Canada by Canadians from the best materials and by the best workmen. Its quality has been proved beyond doubt.

The price is lower because there is no duty to pay. This trademark guarantees quality.

## ENDORSE SIR WILFRID.

In an article in the XIX Century and After Sir Charles Tupper says it part.

Passing to another of the main subjects of Imperial discussion, namely, the constitution and perpetuation of the Imperial conference, I find myself in substantial agreement with what I conceive to be the views of Canadian ministers. The term "conference" is liable to misinterpretation as applied to a body which does no more than confer and has no executive functions, and I cannot see why any one should object to the word "conference." It is essential, as Imperial conference, inasmuch as the colonies are invited by the Imperial government to confer with them. Nor can I see any valid objection to Sir Wilfrid Laurier's claim that other members of his government should take part in the conference with the full status of membership. The object of the conference is obviously a discussion between the Imperial and the colonial governments in order to arrive at results on important questions between them. The presence, therefore, of important members of his government would enable the prime minister of each colony to be with more confidence and arrive at results which would otherwise have to be postponed. They are all sworn members of government and their presence as members of the conference can only be beneficial. cannot, indeed, see why all the members of the colonial government should not be members of the Imperial conference. The question of voting does not arise, and when it does arise, it can be settled by the conference itself.

I am also in agreement with Sir Wilfrid Laurier in the attitude of opposition he is assumed to take up re-

specting the active agitation carried on for some time in favor, ostensibly, of effecting the continuity of the conference during the intervals between its meetings.

**Stockholders: San Railway Companies**  
St. Paul, Minn., May 31.—Eight so-called "friendly suits" were filed in the United States district court today against the Great Northern, Northern Pacific, Chicago, Milwaukee & St. Paul, Chicago and North Western, Chicago, St. Paul, Minneapolis & Omaha, Minneapolis & St. Louis, Soo and Chicago Great Western railways to compel them from putting into effect the commodity rates recently ordered reduced by the State Railroad and Warehouse Commission. The state of Minnesota is made a party in the suits.

The suits are brought by the stockholders of the various roads, and allege that the two-cent passenger rate and reduced freight rate, the latter going into effect tomorrow, are contrary to a provision of the United States Constitution. The complainants ask for an order restoring the old rate. Judge Lochris signed a temporary injunction restricting the railroad and the Attorney General from putting the rates into effect.

## Beechmount!

The Very Best Thing  
.. On The Market ..

BECAUSE it is only one-half mile north of the City limits  
BECAUSE it faces Namayo Avenue.  
BECAUSE it is situated between the G.T.P. tracks and shops.  
BECAUSE the prices are so reasonable.  
BECAUSE the price of lots half mile nearer city is \$600.  
BECAUSE the price will double as soon as work begins on railway this fall.  
BECAUSE the terms of sale are very easy.  
BECAUSE the G.T.P. runs right through it.  
BECAUSE lots half mile further out are higher price.  
BECAUSE men of experience say there is nothing to compare with it.  
BECAUSE it is high and dry ground under cultivation.  
BECAUSE the street railway will run to it as soon as shops are built.  
BECAUSE BEECHMOUNT SELLS at \$100 Per Lot Up.  
BECAUSE the Lots are 150 feet long.

## VEGREVILLE

It is needless to point out that this is, after Edmonton, the most quickly growing town in the west, surrounded as it is by the most fertile land in Canada, and that lots bought in the town are bound to bring good returns. But in addition, an 11-ft. seam of good coal has just been discovered in the town which has already attracted the attention of manufacturers from the States and there is no doubt the future of Vegreville as a manufacturing centre is secured.

We are now placing on the market for the first time a sub-division of this City situated about 1-2 mile west of the station on the main thoroughfare. The lots are 50 x 150 and on the principal streets which are 80 ft. wide, they are 53 1-3 x 150 and the prices range from

\$75.00 to \$225.00. 1-3 Cash, bal. 6, 12 and 18 mos.

Remember that 4 years ago Edmonton was no bigger than Vegreville is to-day and note the rise in prices here and the fortunes made. Not only will they be made in Vegreville but they are being made.

## With the Farmers

### THINKS WHEAT PRICES WILL REMAIN HIGH.

Frank O. Fowler, manager of the Winnipeg clearing house, recently returned from a trip in the United States, and he asked his opinion of the prospective price and the probability of the present prices being maintained. Mr. Fowler, being, for long experience in the grain business, an expert upon all matters pertaining to the trade.

"I have been down through Colorado, Iowa and some other states, and I did not see much of the wheat country," said Mr. Fowler. "What I did see looks well, but the season is late there, I judge, and the crops are just coming up so as to be seen."

"Our own reports are not really new, but I have just sent out among the farmers and about the 10th of June we shall be better able to tell what will be the outlook. Of course, that won't mean that we can tell them how much wheat will be raised or what it will fetch a bushel, but we shall know how much wheat has been planted, and how it is coming along."

"We certainly figured on an increase in the average of last year of about 15 per cent., but of course we don't expect that now. There will be a falling off among those who planted last year, owing to the backward weather, but it is quite likely that the new sowing will about make up for that falling off, so that the aggregate will very likely be as much as was under wheat last year, or about 5,000,000 acres, although there may be a slight decrease."

#### Farmers Well Equipped.

"Our farmers have the advantage of being well equipped and strong to meet such conditions as this, and with their improved machinery and plenty of help efficient command they put in the crop very fast. Aside from the backwardness of the spring, then, the conditions were good; the men in good shape for planting, and they must have been a good deal of planting done in a very short time."

"Cattle graze will be planted much more than usual, because land that was intended for wheat could not be planted in time and that will be used for the coarse grain, and it is just possible that we shall get a good crop of alfalfa. It is a wealth of crop, of course, and the whole thing will depend on the sort of weather we have. Just now the prospects are good and the price is up, as you know."

"I think these high prices are going to hold good for some time. Of course, there will be fluctuations, as the buying and selling goes on, but when the price of wheat goes up, it isn't so easy to get it down again, and I think it will hang between ninety cents and a dollar for a good while. The buying is heavy and the speculator is almost always a bull buyer. He is able to buy and the very fact that he buys has a tendency to force the market up."

"At present prices higher than the Liverpool market, and it shows the independence of our market here from that market when the price in Liverpool falls off materially, as it did today, and yet our market is not disturbed. They are not buying our wheat just now for export, because export prices are too low and we can get more right here. The English millers use our wheat for mixing with other wheat and so it isn't a real necessity for them, and when the market is high, as it is now, they just think they will get along without our wheat until the price goes down. When they get ready to buy they will either have to come up to the price that we have over here or we shall have to come down to their offer, but that won't be as long as values can be made on this side at prices above the export value."

#### Good Thing For the Farmer.

"This high price movement is a good thing for the farmers because they can get a higher price for their wheat than they would otherwise. It does not benefit the elevator companies at all. The elevators had about 2,000,000 bushels on hand, but it was all sold and they don't make a cent out of the rise in value. Yes, that looks like hard lines, but suppose it had gone down ten cents a bushel? The elevators cannot afford to speculate in wheat, and that is left to the men who make a business of it and who must have a quick turnover of their deals before everything else, and they say what they like, but it is as clear as daylight that the open market is what keeps the wheat business good and gives it life. This boom in wheat has been the salvation of the Chicago men. They had been doing business on a losing basis for some time, and had hard times, but they have made some money out of this market and it has put them on their feet again."

"What a thing it will be for the country if we can have dollar wheat! It would be the best immigration aid we could have and our farmers would stand to make a good bunch of money. The chances are good for it, too, the spring weather has been more than good and it is the same everywhere, so that there isn't any real prospect of a crop anywhere that will flood the market. With our chances as good as anybody's for a good average crop, we should stand in no the higher price that seems likely to stay with us, and the prospect really looks good for the wheat farmers."

#### SMUT IN OATS.

Seed oats can be treated so as to prevent smut in the crop. If the sowing directions are carefully followed and carried out, the treatment is very simple, but care must be taken to do the work thoroughly.

Treat the seed with formalin. This is bought from the druggist in the liquid form. It consists of a solution of 40 to 50 per cent. formaldehyde. It should be guaranteed this strength in order to be effective. It may be obtained in sealed pound bottles if large quantities are to be treated. One pound of formalin is mixed with 40 to 45 gallons of water, or 4 ounces

to in gallons of water if small quantities are to be treated. The liquid is easily as soon as mixed. One gallon of water is sufficient to treat one bushel of oats.

Put the oats in a long pile on a tight barn floor. Make a trench lengthwise of the pile and pour the liquid (water and formalin) in the trench the entire length of pile. Shovel over and over again three to four times in order to mix the oats and liquid thoroughly. This is the part of the work on which the success of your operation depends. Make sure that every grain is well soaked with the liquid. Then shovel into a heap and cover with gunny sacks or blankets and leave standing for three hours. At the end of this time uncover and spread out thin on the floor to dry. It is well to dry them as little as possible in order to prevent the grain from swelling and weakening the germinating power. Leave them open and shovel the oats over a few times to hasten the drying. When dry they are ready for sowing.

It is always best for the owner himself to see this operation. It is folly to buy the formalin and go to this extra work, unless care is taken in every detail. Put the oats in clean bags and see to it that the seed had been treated before the seed has been put into it.

It would be a great thing for your neighborhood if you could get a few of your friends together who have been troubled with smut and talk this question over and decide upon thorough treatment. See to it now. If you doubtless have not the formalin in hand, have him send for it at once.

#### Mellan Tells his Troubles.

New Haven, Conn., May 31.—President Charles Mellan of the New York, New Haven & Hartford Railroad, in an address to the stockholders, who had voted to merge this company with the Consolidated Railway Company, this afternoon said: "The only unduly elements with which the management has to contend are the demands of organized labor, which are very troublesome and which will cost us this coming year in the vicinity of \$200,000 for increases in wages, and the unfavorable situation we are in regard to the freight car shortages, which is doubled by the American Railway Association, beginning on July 1st, which will make another \$200,000 increase in our expenses. Therefore, I have to look in the face from July 1, 1907, an increase in the expenses of this company of \$1,000,000 from these three items, and I regret to say, so far as the organized labor item is concerned, that I am meeting constantly decreased efficiency with every increase in wages."

#### Cheered the Emperor.

Potsdam, Prussia, May 31.—The spring parade of the gardens of Potsdam, consisting of about 25,000 men of all arms took place today. Among those present were the Japanese delegates to The Hague conference and 40 visiting British journalists, who were the guests of Emperor William. As the British journalists, who were the guests of Emperor William, the cheers of the British visitors sounded far over the field. They afterwards breakfasted in the privacy of the new palace, where the Emperor welcomed them to Germany.
